CUSTOMER ORIENTATION

Tailor-made solutions
Partner relationship
Synergy in success

OUR VALUES

COMMISSIONING & START-UP

Process Automation

Delivering and integrating different processes necessary for effective control of production plants:

- Raw material handling plants
 - Fumes dedusting plants
 - Water treatment plants
- Mineral separation & milling plants
 - Steelmaking plants
 - Rolling mills for long products
- Cold & hot rolling mills for flat products

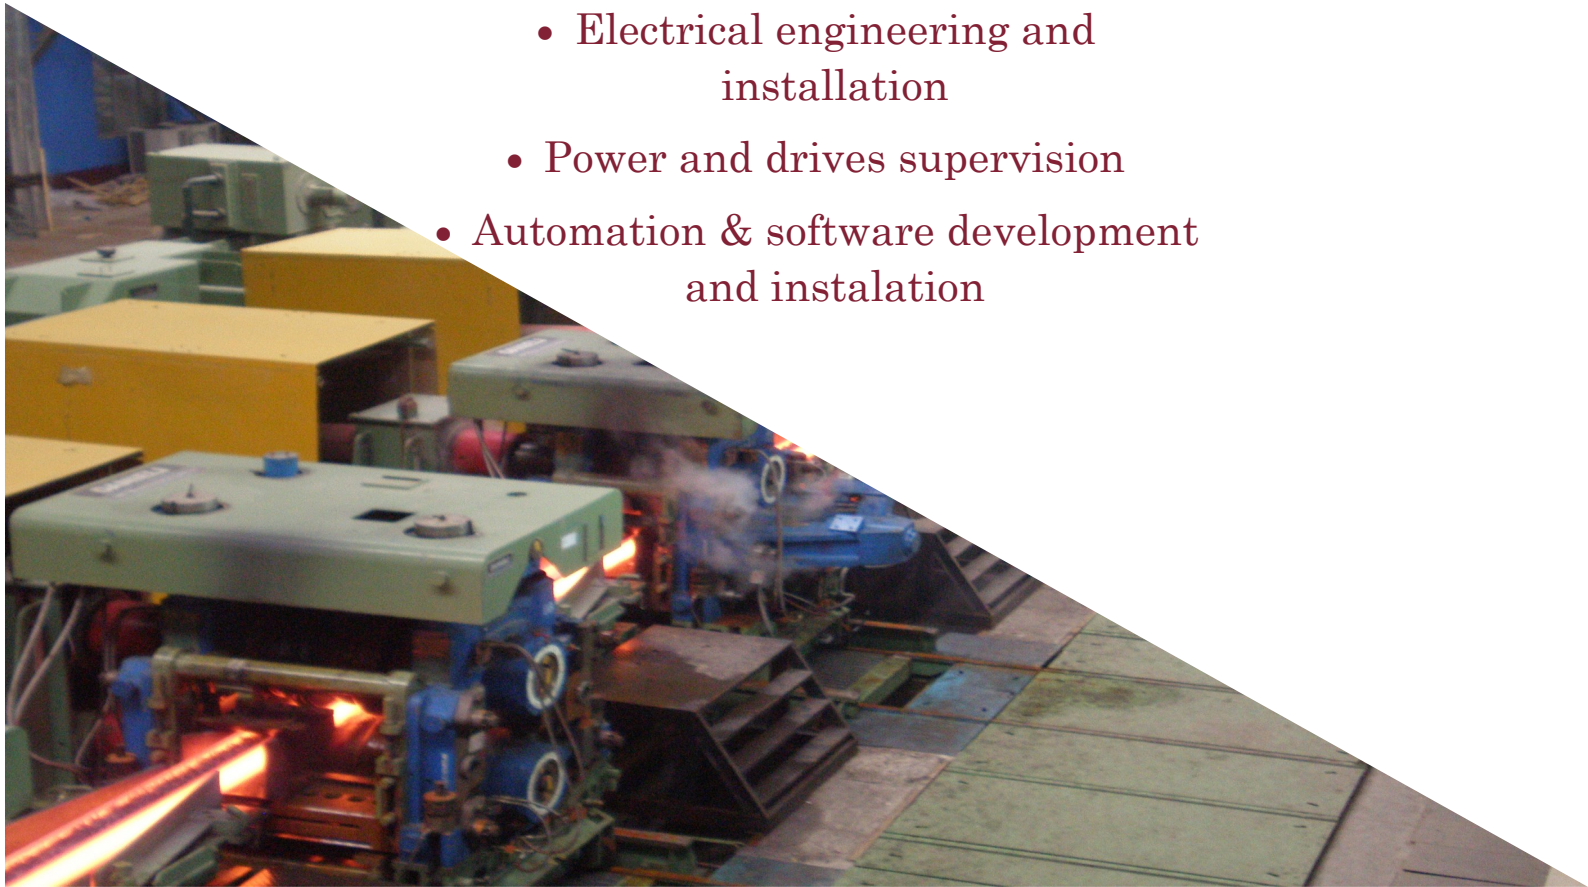

COMMISSIONING & START-UP

Professional expertise

Our commissioning team guarantees outstanding specialists on site to handle all pre-operational, testing and commissioning phases:

- Mechanical, piping and hydraulical supervision
 - Electrical engineering and installation
 - Power and drives supervision
- Automation & software development and installation

SOFTWARE ENGINEERING

Multi-level SW development and installation

Premium IT solutions in areas:

- Automation SW and SCADA development (PLC, HMI)
- Application development
 - Production management and reporting
 - System Integration and tailor-made applications (ERP, MES)

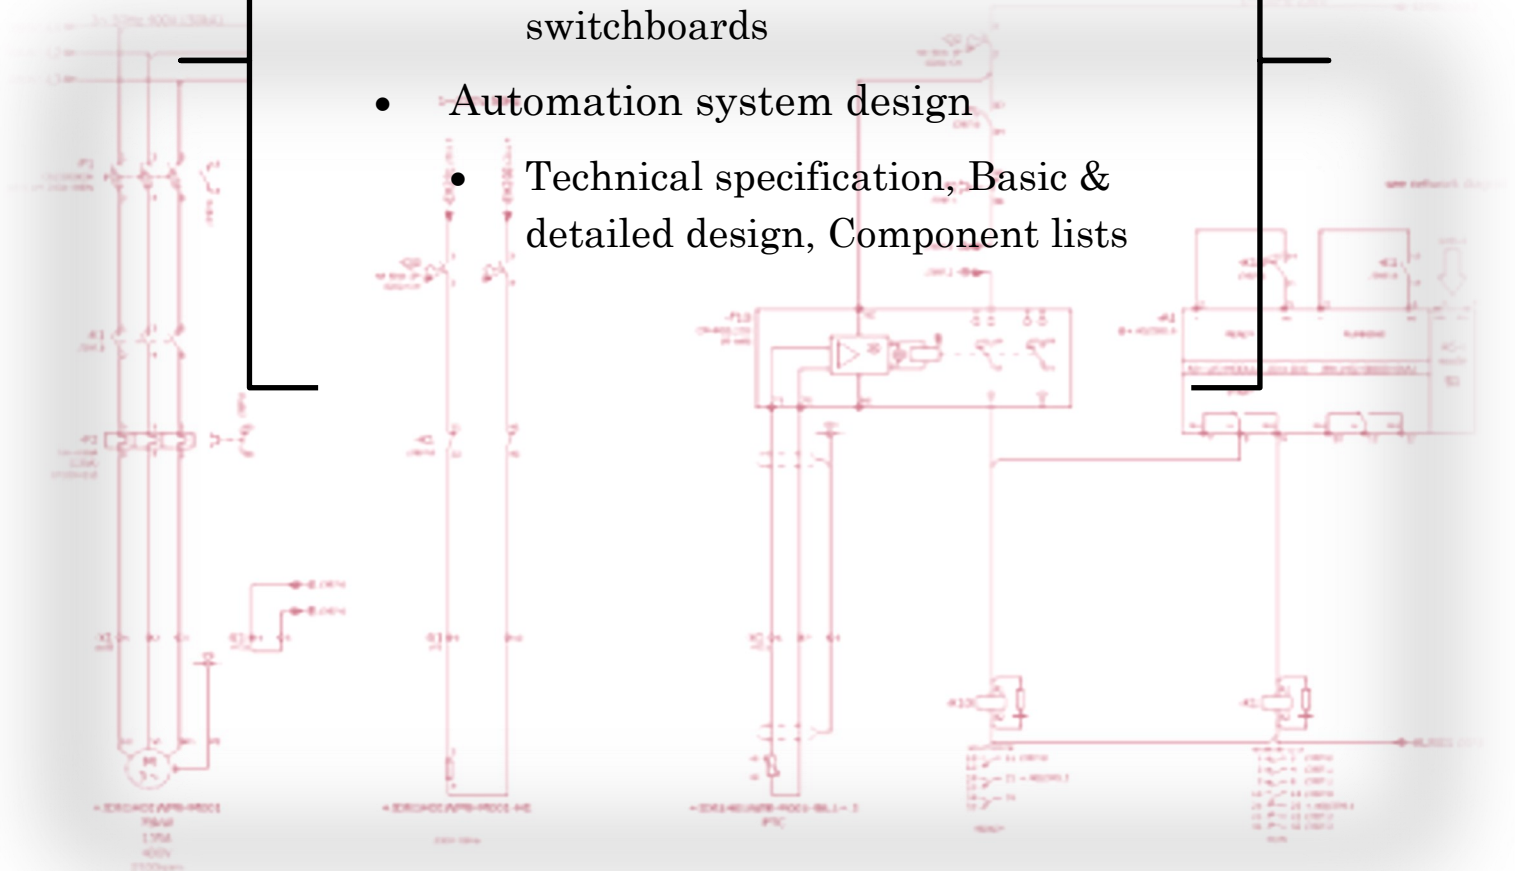

HARDWARE ENGINEERING

Power & Automation HW design

Electrical hardware engineering:

- Power system design
 - Main & auxiliary drives & starters switchboards
- Automation system design
 - Technical specification, Basic & detailed design, Component lists

ELECTRICAL EQUIPMENT CONSTRUCTION

Electric switchboards for industry

New production building in Labin, Industry zone Vinež

Production area of 2500 m² + 1000 m² of office and warehouse area

Capacity for 130+ meters of switchboards

Over 40 expert employees and growing

- Manufacturing, assembly and testing of electric switchboards
- Specialized in manufacturing low voltage drive cabinets
- Providing total service with expert technical support all over the world

CUSTOMER CARE

Service after sales

**Providing technical support to our clients
during and after warranty period.**

Quick and efficient response to customers' requirements

Minor upgrades or complete revamping of existing
system

High level specialists in diverse areas of expertise

On-site and remote support

Continuous training and updating about new products
and technologies

TRAINING CENTER

Internal & External education

Customer and internal employees training:

- PLC & SCADA
- Electrical/drives
- Mechanical/preventive maintenance
- Software troubleshooting
- Customized courses

Continuous cooperation with Technical faculties

- Student practices and mentorship
- Research & development

QUALITY MANAGEMENT

ISO Certificates and more

In order to assure maximal quality and expertise to our customers Danieli-Systec constantly invest in knowledge and skills of our Employees

Our solutions are driven by highest standards and new technologies

Continious improvement is integrated in all our processes.
