iOLAP

Data & Analytics

Dive into oceans of data - from data collection and transformation, database storage management, query performance optimization to creating complex reports and beautiful visualizations.

App Design & Development

Become a builder - web, mobile or desktop applications, learn to build top-notch solutions that are secure, scalable and adaptive.

AI & Machine Learning

Be like AI, never stop learning - translate any business question into just the right analysis to find the best approach and get the valuable answer.

We build on: aws · Azure · IBM Cloud

We build with: snowflake · Informatica · MicroStrategy · tableau · Power BI · node JS · React · iOS · android · R · python · Amazon SageMaker

Student Opportunities

Open Doors Day

Get to know us in just one day, hang out with iOLAPians, find out what we do and which team interests you the most.

For me, iOLAP Academy was a great experience. I learned a lot and I met really nice people, participants of the Academy and mentors. So, don't hesitate, sign up and have a great summer! :D

Ivana Štimac

iOLAP Academy

A free 6-week crash course about Data& Analytics or App Design & Development that will kick-start your IT career.
